Also available if desired, fully battery powered system flexible to setup almost anywhere.

Can also DJ your favourite 'dance floor hits' to keep the party going after the live performance.

Upgrade to the famous portable black grand piano frame (additional charge)

" Thank you Alex for adding such a unique and versatile musical touch to our post wedding canapés/cocktails and then reception/dinner/dance floor at Fins at Plantation House!

We originally reached out to Alex as we had nostalgic memories of going to piano bars during our time in London and we were hoping to recreate that vibe. We were thrilled when we met Alex and learned about his vast experience and customisable options for our wedding, including the baby grand piano and professional DJ set for later in night. He took the time to get to know us and work out what music would suit our wedding best. We had a lot of fun during this process with Alex and it made us so much more excited for the wedding.

With some more laid back music at the start to set the scene, the right mix of soft background music and crowd pleasers during the reception and of course the fun DJ set later in night - it all worked so well. Alex added some fun little tunes /notes during speeches which worked well too. The first dance song, a cover of Someone like you by Van Morrison, was absolutely beautiful.

We appreciate how Alex read the room throughout the night. It was the best result we could have hoped for, with the right song choices and volume to complement each part of the night. Also the baby grand piano looked so awesome!

We have received so many compliments from our guests; they loved the music and being able to make song requests. Our dance floor was full and so much fun, and we loved how our guests were able to sing along during the piano portion then continue to dance during the DJ portion.

In summary, it was one of the best parts of our wedding and we are so grateful. " C & A
